DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1.1 In Claim 1, **delete** lines 1-5 and **replace** with --A polymer electrolyte comprising at least one polymer selected from the group consisting of polyimide, polyetherimide, polybenzothiazole, polybenzoxazole, polyhydantoin, polyquinoxaline, polyquinone, polyoxadiazole and polyparabanic acid;--

1.2 In Claim 4, **delete** lines 1-6 and **replace** with --A membrane-electrode assembly in which an electrolyte membrane is sandwiched between a pair of electrodes, said electrolyte membrane comprising at least one polymer selected from the group consisting of polyimide, polyetherimide, polybenzothiazole, polybenzoxazole, polyhydantoin, polyquinoxaline, polyquinone, polyoxadiazole and polyparabanic acid,--

1.3 **Cancel** Claim 5.

Art Unit: 1751

Authorization for this examiner's amendment was given in a telephone interview with Murat Ozgu on 1/22/2007.

STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The most pertinent prior art known to the Examiner is listed on the attached forms PTO 892 and 1449. As shown by Goto et al. (EP 1245554) and Ogata et al. (US Patent 5403675) polymers with polyphenylene backbones including a branch structure disclosed in formula (1) of Claim 1 are known. However, none of the prior art of record provides sufficient suggestion or motivation to create polymers with the polymer backbones specified in Claims 1 and 4 (polymers comprised of monomers with heterocyclic structures or monomers with imide groups) in conjunction with branch structure of formula (1) in Claims 1 and 4. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the conductive polymer art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
